WHAT DO YOU WANT TO BE WHEN YOU GROW UP?

By Helen

I want to be a doctor because when I become a doctor I want to make sick people become cure. I especially want to cure grandmother. First I want to cure grandfather, and I want to help people and kind to them. Then I need to study well and I need to go to Harvard medical school!

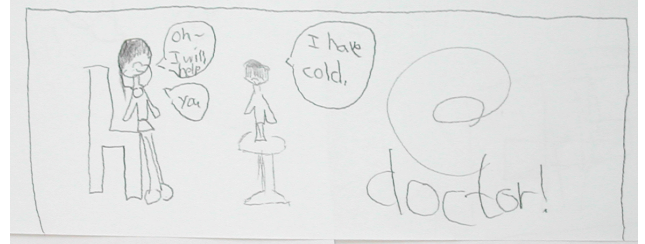

At first when I was little I wanted to be a singer. Because that time grandmother and grandfather was better then now. When I was 10 years old grandmother and grandfather became very sick. I was so sad, and my dream became to be a doctor. But my grandfather died in 2006,2,9, at 11:30. He just couldn't breathe and his blood came out, and my birthday is 2,12. When we are at his grave I ate lunch. My aunt buy cake for party. I was happy but when I went to the grave my grandmother and mom and my uncle cry a lot. I gave flower to grandfather. I came in 2,#13 in 12:00-3:00 to home. In that time my dream become to be a doctor, and I need to study a lot and my mother make me study a lot for doing doctor.

I want to be a photographer, because I like to take pictures. When I take a picture of family or friends or something I like, then I can remember that fun time when I see that picture. I like to take a picture of tall dress and I like to take a picture of cars because I'm interested in cars. So when I grow up I want to be a photographer.
